I. Effect of General Terms and Conditions

1.1 The following General Terms and Conditions (henceforward: GTC) are related to the passenger transport service by cars (henceforward: Service) provided by passenger transport enterprises (henceforward: Service Provider) that are contracting parties to ELASTIC-CAR LLC (Milán Strt 19., Budapest, 1161; Trade Registry Number: ;Phone Nr.: +36-20-422-0022; Website: www.elasticcar.hu, E-mail: info@elasticcar.hu; henceforward: Company) dispatcher service provider (a service that mediates and organizes passenger transportation).

1.2 The service user (henceforward: Passenger) by ordering and using the Service accepts the GTC, which – in order to be able to get familiar with beforehand – is presented in the Service Provider's web page: www.elasticcar.hu

1.3 The Company states that the GTC does not contain any unusual conditions which would affect the Passengers negatively. Beside regulatory requirements – as common for passenger transportation services - it only contains conditions which the Passengers are accustomed to from previous years.

1.4 In case a natural or legal person - wanting to use the Service - enters into a written contract with the Company (henceforward: Separate Contract), the directions of the GTC are only relevant in the questions not detailed in the Separate Contract.

1.5 In case the Passenger uses a service not controlled by the current GTC, the regulations of the GTC are effective jointly with the regulations for that specific service.

1.6 The GTC is not going to be applied for other kind of activities (especially in the aspect of passenger transportation) done by the Company.

II. The Service

2.1 The Passenger Transport Service uses cars to transport passenger(s) and their luggage in compliance with the GTC regulations to a specified destination.

2.2 The Service Provider can only start its operations within a specified area, but it is permitted to transport a Passenger back from outside the area of operation. For transporting a Passenger from outside of this area to a destination within the area, a written preorder is required.

2.3 The Company - in case the Service is carried through by the Service Provider - is not responsible for the Service itself, but agrees on investigating any problems or complaints without delay concerning the Service fulfillment. In case of a valid complaint the Company will sanction the Service Provider and will help the service user to get an appropriate compensation.

2.4 The Service Provider is obliged to enter into a contract for the Service with the exceptions described in subsections (a)-(d)

ELASTIC-CAR LLC GENERAL TERMS AND CONDITIONS

In case the Passenger's identity or his/her contact information is known, the Company will immediately notify him/her that he/she left valuables in the car, and provide information where to retrieve them.

4.4 Special requests

4.4.1 The Service Providers operating for the Company have to comply with every condition described in the legislation. However, taking the different capabilities of cars and Service Providers that are part of the service into account - based on the current GTC - the special requests of the Passengers regarding the passenger car transportation service can not be guaranteed unconditionally.

The followings are considered as special requests for example:

- transporting live animals,
- transporting wheelchairs,
- baby seat,
- transporting oversized luggage (e.g. ski equipment, bicycle).

4.4.2 For some of the special requests related to passenger transport services an extra charge has to be paid. Therefore it is recommended to place the order with special request at our Company so that a suitable Service Provider can be chosen, who can carry out the order and is willing to do it.

4.4.3 Requests that do not fall into the category of passenger transportation services (escorting, carrying hand-baggage, table signing at airports, administration tasks, procurement etc.) are not controlled by the GTC, but with separate legislative agreements made with the Service Provider or the Company.

4.5 Damage done to the car by the Passengers (contamination, vandalism)

4.5.1 In case of damaging the car, permanently contaminating the passenger area or other type of vandalism, the Service Provider can charge the Passenger with the repair costs of the damage and any other claim-related expenses.

4.5.2 In case the Service Provider and the Passenger can not agree about the damage, the Service Provider is obliged to notify the Company so that a representative of the Company can go to the scene, make a report of the claim which then will be signed by the Passenger. In case the Passenger refuses to sign the claim, the representative is obliged to indicate this fact in the report, and call the police if necessary.

V. Service price calculation

5.1 The price of the GTC-based passenger transport service is the fare.

(a) basic fee: the price that the Passenger is charged with upon the start of service-using;

(b) standard price proportionate to distance: the price that the Passenger is charged with based on the travelled distance (unit of measure: HUF/km);

(c) standard price proportionate to time: the price that the Passenger is charged with based on the duration of the service-using (unit of measure: HUF/minute).

The fare to be paid is calculated from prices (a) to (c) above – taking the changeover speed into consideration. The changeover speed is the speed where the car records an increase of price proportionate to distance in case the speed is higher than this limit, or proportionate to time if the speed

ELASTIC-CAR LLC GENERAL TERMS AND CONDITIONS

is lower than the limit. The standard price proportionate to time will be applied in case the changeover speed is less than 15 km/hour.

5.2 The prices include the value added tax

In case the passenger transport service began within the administrative boundaries of Budapest but the destination is outside of it, the Service Provider can charge the Passenger with the above fare for the travel back to the administrative boundaries of Budapest.

5.3 Calculating the fare to be paid

(a) in case of a preorder or an order the fare calculation begins at a time in which the Passenger and the Company agreed upon beforehand, if the car is in the prearranged place in the prearranged time.

5.4 Since the service is completed by the Service Provider – who is in contract with the Company -, and it is done in the Service Provider's name and for its own good, the billing is also done by the Service Provider, and the Service Provider is entitled to it as well. The Company does not receive money from the Passenger for mediation.

5.5 The fare has to be paid when the service is completed. The Passenger is obliged pay the fare in cash or with a credit/debit card (no extra charges), in Hungarian Forints, Euro or Dollar. Other paying methods are available if a separate contract is made or in case point 1.5 of the GTC is effective.
